<b>Section:</b>	Section 3.9
<b>Question:</b>	The Performance Evaluations verbiage indicates that State will not be liable to contractor for any costs should State deem contractor services to be unacceptable.  Hence, in a situation where a specific resource worked onsite at ADOT for 9 months and after 9 months, the resource was found by ADOT to be unacceptable, would the State require the vendor to reimburse any fees paid by State to Vendor for this resource?
<b>ALDOT Answer:</b>	If ALDOT has already paid for services rendered, the Vendor would

However, if between the time of last reimbursement and the next reimbursement period, ALDOT deems the performance unacceptable, ALDOT reserves the right to not reimburse the Vendor for that specific period of time.
